

The AO Scan - A roadmap to wellness & self-discovery

Are your 15-minute medical appointments leaving you feeling squeezed in & unheard?

Are you at a loss with all the supplements available? If so, let's dive into the possibilities of the **AO Scan** to help you navigate your life with greater clarity.

You've probably heard that Americans have the most expensive urine. Why is that? Oftentimes, one takes a lot more supplements than the body can utilize and although these supplements go through the body, they often go unutilized & out into the urine. What if there was a way for you to see what supplements you need now and how much, from the comfort of your home? Then reach out for the **AO Scan, digital body analyzer**.

Did you know that emotions and feelings that are over-expressed, and especially under-expressed, can be detrimental to your mind, body and spirit? What if there is a way to bring about balance using an APP? What? That's available in an APP?

Some may wonder: "It must be difficult to do".

The answer is No. Even a 4-year-old can use the APP. Nick featured on the left. The AO Scan APP does require a dedicated WIFI device for the many programs to run smoothly. Got an extra phone or a tablet?

There you go! Get ready to load the AO Scan APP.

Background

The AO Scan mobile APP was developed by Solex LLC headquartered in Utah.

When their Wellness Center had to close during the quarantine, as many others did, the large, desktop \$38,000 AO Scan device became unavailable ... people had been coming from far away to experience and receive optimization from this device. Loran Swensen, Solex LLC president, went to his engineers to find out if the large AO Scanner programs could be moved onto a mobile phone. The **AO Scan mobile APP** was officially launched in 2021. The App was placed on a dedicated phone to run a variety of programs. **Think of it as an electronic prayer.**

So, what is the AO Scan based on? Over the past 20+ years, more than 120,000 vibrational frequencies have been isolated, identified and catalogued in the human body from the healthiest to the least healthy frequencies. The **AO Scan APP** is based on these frequencies. During a Scan, your brain picks up what is out of balance and then frequencies are sent virtually to gently optimize the body.

The AO Scan technology is based upon this research MEASURING, ENHANCING, & then OPTIMIZING the frequencies of each individual part of the body like organs, tissues and cells, etc.

The “**Inner Voice Scan**” was the first and most important program to be uploaded successfully. Ten seconds of one’s voice can determine emotions seated from subconscious programming. Most importantly, the Scan Report generates Sound Tracks to listen to for a few minutes to guide towards Optimization. Life’s journey is easier when emotions are balanced for us to enjoy and experience the moment... rather than flying off the handle totally dismissing the wonders right in front of us. The book “*Feelings Buried Alive Never Die*” reminds us of the importance of feelings and emotions. Many holistic healers recognize that the majority of illnesses have emotions as the ‘root cause’ which must be recognized to heal.

Added to the **Inner Voice Scan** are the **VITALS Scan** and **COMPREHENSIVE Scan**. These Scans have become the **3 Primary Scans** to run and utilize sounds and frequency upgrades to benefit the individual towards a more balanced state.

With everyone having a busy life, one of the **advantages of the AO Scans is that they can be performed, offer Optimization and deliver the Report and Sound Tracks in a matter of minutes to anyone and pets anywhere in the world!**

Well over one million scans have been done “virtually”, that is they have been done when the AO Scan APP and the client are in different physical locations. “**Changing the world (for the better) ONE scan at a time**” is our motto.

More Scan options were developed to include an entire section with hundreds of frequencies to choose from. One can set-up a Playlist of frequencies to use for various symptoms one might be experiencing. For instance, abdominal pain, diarrhea, eye issues are a few examples.

Using the AO Scan, one can create **homeopathic and flower remedy frequencies** to imprint in sucrose pellets to ingest or imprint in water. Frequencies can also be imprinted in objects such as a bracelet or in a room. *Think Feng Shui!!!* with the goal of optimizing one’s life and environment.

Of great importance, one can set up a **Supplement Library** from the supplements you are already taking. The Scan Report will show key supplements needed. As such, one usually finds that less supplements are needed. In turn, money is saved! Pharmaceuticals are not uploaded in the library.

Chakras, meridians are also Scanned and Optimization follows to ensure restoration of balance.

A recent addition is the **AO Tune and Transducers**. *Think Sound Healing*. The App allows the device to Scan and send frequencies where imbalance is picked up just like tuning forks.

Scanning can also involve the **Affirmations** best for you to use during the day or more powerfully at bedtime to assist brain waves towards sleep time and manifestation of your affirmations. This utilizes your own voice recording to enhance the effectiveness.

Also developed and growing is the **Solex Product line** to include **Supplements** for Digestion, Brain Support, Sleep and Immune System support., to name a few. An entire **AO Infinity line** to include a Tera Hertz Wand and Stand, Foot Detox which does not require water, SiBin - frequency imprint-able bracelets, rings, water sticks. And the AO Scan and supportive items continue to grow.

Let's keep in mind **Pets** and their needs. Pets can have **Vital Scans**, wear a frequency imprinted collar and benefit from **Pets Plus**, a supplement designed for them. Vital Scans can be done on cats, dogs and horses with more animal options to come. Veterinarian doctors are finding that doing AO Scans can help them 'cut to the chase' finding the root cause of the issue saving time and expense for

the pet owner thus quicker relief for the pets and their owner!

A Scan can be done virtually from the comfort of your home. How does that work? A profile is set up with basic information unique for a person such as full name, date of birth and email address. Pet profiles are under their owner's profile. There you go ... accessing the UNIQUE frequency patterns of the person or pet. The client can use the AO Scan as an educational tool and if needed, work with a practitioner.

The simplicity of the AO Scan APP: Scan and Optimize.

Listen to the Sound Tracks.

Notice patterns, areas that consistently fail to respond to Optimization.

Take action from the Report Recommendations.

An added Bonus:

No specific background, skill or certification is needed to run AO Scans.

TESTIMONIALS:

Testimonials #1) I was new to using the AO Scan when I received a call from Susan who had been brought her husband Ted to the ER to rule out a stroke. It was during Covid, and Susan was told to go home. She already had Ted's Profile (information) on her own AO Scan APP. While Ted was being worked up in the hospital, I recommended Susan run the Vitals and Comprehensive Scans and send me the reports for us to look at together. Keep in mind that the Vital Scan and Comprehensive Scan include 'Optimization' (of frequencies) which Susan did. What stood out in the Vitals Scan was *pesticide toxicity* which did not respond to Optimization.

Upon questioning her, it was found that although the grass from their yard was pesticide-free, Ted walked their dog at the city park where pesticides were sprayed on a

regular basis. As the Scan, Optimization and Report were looked at, Ted's symptoms were decreasing while waiting for his blood work and hospital scan while receiving NO treatment but the AO Scan and Optimization. There was no stroke. He was given a diagnosis of Bell's palsy. A plan of care included taking a different outdoor path and washing off the dog's paws before entering the house. It was suggested he bring the Comprehensive Scan report to his chiropractor showing areas that needed support. The symptoms gradually disappeared. To this day, 3 years later, Ted still uses the AO Scan as part of his care.

Testimonial #2) I received a call stating Paul had totaled his car hitting a pole and both air bags were deployed. A nurse was at the scene and was amazed Paul stepped out alive, walking seemingly without problems. Paul was brought to the emergency room for evaluation.

Meanwhile, having his Profile, I ran the Vitals and Comprehensive Scans with Optimization. I was reassured that there was no evidence of hypoxia or broken bones yet some chest muscles failed to respond to Optimization. Hospital findings: no concussion, no broken ribs and he was discharged. I felt that Paul would most likely experience a lot of chest soreness from the impact of the crash oftentimes felt hours or even a day later and sent him *Arnica Montana homeopathic frequencies* **virtually** from the APP. He experienced no pain from the accident yet at the urging of his mother, Paul took one Tylenol tablet that night and overall had NO pain during his recovery.

Testimonial #3) Nancy, a friend's daughter was pregnant and overdue. Her doctor told her that a C/Section would be in order soon.

Nancy's mom, owning the AO Scan APP created a **Frequency Playlist** to support the baby in feeling safe to come into this world.

A few days later, baby Amber was born naturally.

Frequency support also helped Amber with a bout of constipation along with looking at Nancy's diet as she was breastfeeding. Both baby and mom were relieved!

Testimonial #4) Lucy, a therapist and pet owner was caring for an ailing father and was facing the prospect of a new job. She felt overwhelmed and very depressed as she had her hands full and shared that if something happened to her cat, she didn't know what she would do. I was very concerned about her mental state. She opted for having Virtual AO Scans on a regular basis while promising me that she would listen to the Sound Tracks delivered in the report... and let me know if the depression failed to lift.

I encouraged her to have access to the APP herself to do the Scans for herself, her dad and cat on a regular basis. She was reluctant. During a follow-up phone conversation, she asked frequencies be sent to her beloved cat. Looking at the Pet photo Lucy provided me with, one of the eyes looked abnormal and I felt needed frequencies which were sent virtually by SEFI.

We scheduled Lucy's next Scan and hung up. Minutes later, Lucy called me and said her cat's eye normalized in real time witnessed by herself and her father.

SEFI stands for Subtle Energy Frequency Imprint. These frequencies are imprinted in a person, pet or object present or virtually by distance. **Think distance healing.**

She decided to get the APP and has been scanning ever since. Lucy was encouraged to stay in touch and felt confident in using the AO Scan on her own. Fast forward 6 months later, her cat had passed away and Lucy had acquired another cat. Lucy talked about it very matter-of-fact, which took me by surprise as she was so attached to her pet. Lucy was also adapting nicely to the demands of her new job. She continues to use her AO Scan on a regular basis which has been over two years.

Testimonial #5) While initially enjoying take-out from a 5-star restaurant, Mike developed abdominal pain, cramping and gas. New to the AO Scan which he had forgotten about, he finally thought of doing a **Vitals Scan** which showed Salmonella. **Frequency Optimization** followed. He took some activated charcoal tablets. The symptoms completely resolved shortly after.

Testimonial #6) Caleb, a 30-year-old, **non-verbal autistic** lives with his parents who use the AO Scan. Initially, Caleb made it known using sign language that he was reluctant to be scanned yet cooperated. The AO Scan showed what emotions he was unable to express and how these emotions affected his ability to balance his organs. As importantly, the Scan Report gave suggestions to help.

Daily AO Scan sessions continued and within months, he is able to retrieve his Profile from the device, do his own Scans and listen to his sound tracks. On his own, he is able to imprint frequencies in the palm of his hands when homeopathic remedies show up in the Report. He takes the recommended supplements more readily seeing them from the Scan report himself. Caleb is also expressing himself much more by making his needs known through writing. He is more relaxed and has found his own way of joking, all non-verbally! When he laughs, sounds can now be heard! To this day, his parents are encouraging him to use the Bone Conductor set over the TMJ area for a deeper affect. The family is thrilled at his progress.

Testimonial #7) Marissa, a **seasoned artist** had this to share after listening to her Sound Tracks from Inner Voice "I've had the most blissed out day I've had in a long time. I've made a few nutritional changes, and I'm exercising and walking every day again. B12 came on Monday, so I've had that for three days.

This morning, while exercising, I listened to the Pulse Tones continuously with Dream Slip instead of Piano Bliss. At the end of my exercise, I just laid flat on my back and couldn't budge because I felt so blissful. When I came out of it, my cat was laying in a Zen like pose beside me. I didn't know she was there. The feeling lasted all day long. It has to be because of the music and the few (dietary) changes I've made. I hope this is just the beginning of feeling better and better. Thank you so very much for the Inner Voice Scan."

Testimonial #8) A friend in her 80's had been a widow for 6 years grieving her husband of nearly 50 years. Following the Inner Voice Scan, she was emailed the Report which includes 4 Sound Tracks. Three Sound Tracks are from over-expressed emotions and the 4th, most important Sound Track, comes from **under-expressed emotions**. She shared that for 2 weeks, she was unable to listen to the 4th Sound Track as she was "crying buckets".

She found a music piece resonating with that 4th Sound Track. This gently moved her into accepting more easily, from an emotional-standpoint, the under-expressed emotions from her Scan. She was then able to listen to all 4 Sound Tracks and was ready for her next Inner Voice Scan.

She then purchased the **AO Scan Bone Conductor set** to wear as she listened to subsequent AO Scan Sound Tracks and felt a deeper sense of shifting towards emotional balance. She was ever so grateful.

Testimonial 9) This AO Scan owner had been **teaching high school** forever she said. Doing her own AO Scans every day and finding greater emotional balance, she decided to ask her students if they wanted to experience 3 minutes of Zen Frequencies. "On several occasions, my students reminded me that they needed the ZEN TIME. How exciting to be able to change the classroom environment and help my students so easily!"

Zen are frequencies emitted from the SEFI program.

These SEFI frequencies are not heard, simply broadcasted!

Additional feedback:

Some people have used the APP to run frequencies to sleep better at night. Nowadays, the APP has **MindSync** to Scan for the most ideal affirmations to listen to that allows a reset the body during sleep.

In closing, as mentioned in the title of this article, the AO Scan often provides a roadmap guiding us on ways to support the body physically, mentally and emotionally. There is

no contra-indication in terms of age or medical conditions. AO Scans have been done during pregnancy and labor, on babies, the elderly and those with various medical conditions to include pets. A million + AO Scans have been done in the 3 years since the APP came to life. Keep in mind that the AO Scan is an educational tool. It does not diagnose, prevent, treat or cure any illness. It helps us shift towards balance.

ABOUT THE AUTHOR

Jocelyne Colombe (formerly Lebowitz) is known for bringing the new to individuals interested in enhancing their life. She has been showcasing energy medicine since 1994 as a Reiki Master, Reconnective, Holographic Sound Healer and Theta Healing Teacher. She has taught Energy Medicine to medical students, at a healing school and traveled to various countries further attuning herself to ancient frequencies. Since 2006, she has been a promoter of the Infrared Biomat through her company Universal Biomat as a global independent representative for Richway & Fuji Bio Sciences.

Although she left the hospital setting in 2007, she continues to infuse her medical knowledge as a Holistic Nurse Practitioner working with clients *virtually* to support awareness of body, mind and spirit. She leads her life in faith from a higher power dedicating her life to awakening others using non-invasive, easy-to-use, effective tools in the home setting. She hopes through her endeavors to create a bridge from the existing medical model to one where we become self-sufficient through self-awareness.

Jocelyne does AO Scan Sessions virtually along with support in understanding the Reports.

Every first Monday of each month,

a **FREE** 'Introduction to the AO Scan' via **Zoom** is offered.

Those attending can schedule a **FREE** 'Inner Voice Scan'.

Sign up or Schedule a Session by contacting Jocelyne Colombe at

aoScan4you@yahoo.com and www.jcDove.com
